DIMNER TONIGHT FOR WESTERNERS

Many Matters of a Social Nature to Be Decided

McGill men from all parts of the "mild and woolly" West will assemble tonight at the Union at 6:30 to organize for the season's activities. These activities will be essentially of a social nature, the idea being to bring students who have come from Manitoba, Saskatchewan, Alberta and British Columbia into touch with each other. Conditions at McGill, with its absence of dormitories, are such that it is possible for fellows in different faculties to go through college without getting to know each other. It is to the mutual advantage of all those who have come from the far-away west to McGill, to meet together here, while the Western Club affords the opportunity. They will not only have many things in common to talk about now, but when they graduate and go back West, they will meet friends wherever they go. The association of all the Westerners together at McGill in the Western Club, will facilitate the formation of McGill Alumnae Associations in the West, and thus perpetuate the McGill spirit. In this way the club has a far-reaching influence, for the benefit of its members in post-graduate days.

What part the club will take in college life this season will depend on the decisions of those present at the meeting tonight.

The meeting tonight will take the form of an informal dinner since it is necessary to combine business with pleasure. For this reason a formal series of toasts will be dispensed with. The guest of honour will be Sir Arthur Currie, recently elected honorary president, who in spite of pressing engagements, both afternoon and evening, has consented to be present at the dinner. His presence should impel every Westerner to make a special effort to be present, because Sir Arthur will be able to point out, as no one else can, the relation of the club to the college as a whole, and the part it should play in college activities. The business of the meeting will be: 1st, the election of vice-president, secretary, treasurer and provincial (or faculty) representatives; 2nd, to discuss the question of holding a dance in conjunction with the Maritime Club; 3rd, to discuss the programme of activities for this reason and the nature of the next meeting.

Any good cheer which will be found lacking in the cider will be supplied by the club orchestra, composed of the following club members: Patterson, on the piano; Vango on the violin, and Jazz Harrison and Simpson on the saxophones.

W. A. CARLYLE SPEAKS ON CANADIAN NICKEL

At a well attended meeting of the Mining and Metallurgical Society held in the Chemistry and Mining building last night, Mr. W. A. Carlyle, graduate of the class of Mining '87, spoke on the mining, smelting and refining of the Canadian nickel ores of the Sudbury district.

The address was well illustrated by numerous instructive slides taken at the plants of the British-American Nickel Corporation, of which he was the managing director.

The scope of the lecture covered the development of the project from the preliminary diamond drilling at the Murray mine to the erection of the refining plant at Deschenes, which was accomplished in spite of the trying difficulties encountered during the war.

At the conclusion of his remarks the speaker was tendered a hearty vote of thanks by the chairman, Mr. A. Powell, and the meeting adjourned for refreshments.

DISPLAY OF HYPNOTISM LAST NIGHT

Mr. De Silva Held Large Audience Spellbound

ADAMS SUBJECT

Demonstration Followed by Discourse and Questions

Last night a very large gathering had the privilege of seeing a demonstration of hypnotism by Mr. H. R. De Silva, and also of hearing an interesting talk by him on the history of hypnotism. Mr. de Silva is a graduate of Harvard University, and is at present connected with the Department of Psychology. The meeting was held by the Philosophical Society, and the president, Wilkinson, was in the chair. The minutes of the previous meeting were read and adopted; these minutes principally dealt with the election of officers, the list of which has already been published.

Wilkinson thanked the members for having conferred such an honour on him; he went on to say a few words about philosophy and he stated that "Philosophy is a sincere effort after truth." In introducing Mr. de Silva he told of his previous training, and explained the nature of the evening's programme.

In his opening remarks Mr. de Silva said that he would give his demonstration first, and his talk and explanations afterwards. He immediately called in the subject whom he had selected to come forward. Adams, the subject, reclined in an arm chair provided. Mr. de Silva stated that he must help him as much as he could, for only in this way would the demonstration be possible. Then he made motions with his fingers and murmured low sounds. Perfect stillness reigned throughout the room ,and the audience sat spell-bound as the subject gradually lost consciousness. The hypnotist continued by placing Adams' arm in different positions, and showing that it stayed as it was placed, although the joints were loose. He also placed the hands folded over his chest. After extending the subject's leg, he showed that it was so rigid that neither he nor Wilkinson could bend it. Following this, Mr. de Silva started the subject's hands moving, and then ordered him to continue; he fully controlled the speed by merely telling him to move faster or slower or to stop. The president of the Society then did likewise, until the hypnotist told Adams not to obey him, when he stopped moving.

The next experiment was in giving the subject addition and subtraction. His result for 992—87 was 812, and for 52 plus 123, as 168, both of which were rather far out. Mr. de Silva then pinched the subject's hand, and both he and Wilkinson stuck pins in his finger. On being questioned, Adams drowsily remarked that he felt this, but that it did not pain him.

As a final test, the hypnotist told Adams he was going to ask Wilkinson two questions, one of which the subject was to remember, and the other he was to forget. He also gave the subject certain instructions as to what he was to do when he woke up. Then he told him to count ten; he was to count five and then wake up, but continue counting through to ten. It was remarkable to notice that as he woke up his voice changed and became more assured. Immediately after coming out, he answered certain questions which were put him as to his feelings, following which he went and sat in the seat which Mr. de Silva had instructed him to take.

Mr. de Silva now commenced to talk on hypnotism, which, as he said, is not a new thing. It was noticed long ago that snakes have a sort of charm over birds; they fix their gaze on them and then devour them. Cats also put birds in a passive condition by a power similar to hypnotism. From earliest times there are records of such people as Hindus and Indians knowing something of hypnotic power. The Hindus practice antohypnotis by fixing their gaze on their nose or some other part of their body, while Indians in their war dances produce the same effect. Hypnotism can also be attracted by repeating monotonous phrases or words such as Mesopotamia.

The first scientist to really take an interest in hypnotism was Van Helmart. At this time it was considered supernatural and one of the black arts. His work is not very important, but he is notable as being the forerunner of a number of scientists who have been connected with this art. Another man, who lived in Ireland, had the power of effecting cures by throwing people into trances; his most remarkable case was curing the king. This phenomen was

McGILL TO LISTEN TO EX-PREMIER

Sir Robert Borden Will Address Students

AT R.V.C.

Meeting Under Auspices of Canadian Club

The Convocation Hall at the Royal Victoria College should be filled to capacity this afternoon at five o'clock, when Sir Robert L. Borden, K.C.M.G., K.C., K.C.B., LL.D., will rise to address the undergraduate body of McGill. This is the second gathering of the Canadian Club this year, and it is due to the endeavour of the executive that Sir Robert is to speak this afternoon. The meeting will be presided over by R. K. Jones, Arts '23, President of the Club.

To-day's guest requires no introduction. He is remembered and honoured as a Conservative statesman in Canada, and as a broad-minded, tactful diplomat abroad. In 1911 he was elected to the leadership of the Government at Ottawa on the reciprocity question. In this instance, he was, of course, basing his claims upon a Conservative platform, but in 1917, after a nation-wide campaign, in which he opposed the late Sir Wilfrid Laurier, he was returned to the head of the Union Government, where he remained during the troublesome days preceding peace, and during the momentous period after its signing. As Canada's representative at the Peace Conference, he gained prestige for his country and credit for himself, receiving very high recommendation from the British delegation, and much recognition from the other powers present. It is, therefore, a privilege for McGill to be afforded an opportunity of listening to the words of such a noted Canadian, who has come here at no small trouble to himself.

It is not probable that there will be more than another general meeting of the Canadian Club before the holidays commence. This may be, then, McGill's last chance of the present year to welcome a distinguished visitor to its midst.

Fish (in Chem.): Hey, want this lithrage?

2nd Fish: No, got mine already.

Fish: How so?

2nd Fish: Just came from a warm Soph. bull pen.—The Battalion.

A CORRECTION

In yesterday's "Daily" it was announced that Law '25 had been victorious over Law '23 in the debate held in the Law building on Tuesday. This was an error, due possibly to the fact that the audience voted in favour of the First Year, the Negative, while Professor Smith, who presided, awarded the decision to the Seniors by a narrow margin. This last verdict was final.

MECHANICAL CLUB VISITS "STAR" PLANT

Bell Telephone Co.'s "Main" Exchange Very Interesting

DUAL TRIP

Newspaper Production of Absorbing Interest

Yesterday afternoon the first and second year members of the Mechanical Club visited the "Star" and the Main Exchange of the Bell Telephone Co. About fifteen students availed themselves of this splendid opportunity to see the inner workings of a newspaper and also of a telephone exchange.

Leaving the Union at 2 o'clock the party proceeded to the "Star" office, where Mr. Little took it in charge. He conducted the students through every department of the establishment, explaining each operation in detail and answering the numerous questions put to him.

The printing presses are in the basement; the 1st, 2nd, 3rd and 4th floors are utilized for the main offices and the offices of the various departments, and the composing is done on the 5th floor. The distributing department is in the building on the other side of Fortification Lane, and is connected with the St. James street building by four "bridges."

The printing room was visited first. The party arrived just a few minutes before the presses were put in operation to turn out the first edition of the paper. During this interval Mr. Little explained the operations of the presses. There are five printing presses, four "angle guide" and one "three-decker," each with a capacity of 20,000 to 24,000 copies per hour. The rolls of paper are handled by electric cranes, as the 72-in. roll weighs 1200 lbs and contains 3 1-2 miles of paper. The semi-circular shells of type are adjusted in the machine, and the paper threaded through. The ink is applied to the type by feed rollers dipping in troughs; 1 lb. of ink prints 125 rolls, and 90 lbs. are used daily, as well as 350 miles of 36-in. paper.

Three rolls of paper are printed separately, and then run together through a machine that cuts the papers, folds them, counts them, and delivers them to an endless belt conveyor. This conveyor delivers them to the department on the other side of Fortification Lane, where they are tied up in bundles and delivered to the news agencies.

Three editions are printed daily. At 2:30 the first edition comes out giving the noon quotations of stock market. At 3:30 the second edition appears on the street, giving the closing quotations of the stock market. It is worthy of note that although the market only closes at three o'clock, the "Star" containing the closing quotations is for sale within half an hour. The final edition is out at 6 o'clock containing news that has come in since the first edition was issued.

The next department to be visited was the mailing room. From this office the "Star" is sent out all over the country daily—in fact ninety-six per cent of the post offices in Canada are on the mailing list. The "Star" has its own mailing bags and its own mailing system whereby it is practically impossible for a paper to go to the wrong destination.

The party then proceeded to the composing room. Here the type is prepared on the Linotype machines. Plates of photographs and other than printed matter are made by an etching process. This work is not done on the premises.

The intricate working of the fascinating Linotype type-setting machines was carefully explained, and many blocks of type were cast and distributed as souvenir paper-weights.

When a number of lines of type have been cast they are put in a "galley" and taken to a composing table, where the various articles are arranged in a "rack" in their proper positions, so as to form a page of printed matter. A proof is then taken for the proof-readers, and any necessary corrections are made. A matrix is then made of this type. Five sheets of tissue paper are pasted together with a special brand of paste. One of these five-ply sheets is placed on the frame containing the type and the whole put into a steam-heated press. Here the impression is made on the matrix and the paste hardened by the heat. The matrix is then placed in a mould and hot metal

SERIOUS STRIKE DEVELOPS AT P.C.

Students Desire Fair Representation

The Presbyterian Theologs. are out on "hunger strike," and it has been announced that the dining room of the Presbyterian College has been closed indefinitely. The students, as a body, asked that hash be eliminated from the menu, but on Monday night the source of argument once again appeared on the table. The result was an instantaneous and unanimous walk-out, on the part of the diners. At nine o'clock the same evening, a notice was posted to the effect that the serving of meals at the college would be suspended indefinitely.

However, it has been learned from authoritative sources that the real cause of the trouble lies in the fact that the students desire representation on the House Committee, which at present is composed entirely of city men. From exterior appearances the walk-out is merely an effort to bring the matter to a head. If the present desire of the students, namely that the dining room be reopened on a revised basis, is frustrated, it is stated that the matter may take an even more serious turn.

The outcome at the present time is such in doubt, but at the time of going to press a deadlock appears to have been reached.

STAGE SET FOR GORGEOUS EVENT

Junior Prom. at Union on Friday Night

The upper reaches of the Union have recently undergone radical, but not altogether undesirable alterations in the course of preparation for that classic of the college year, the Junior Prom. The decorative ingenuity displayed by the Junior Committee has produced a magnificent effeect, surpassing description. One salient feature is the replacement of the time honoured old red and white clock, which has served as dance marker, by a stupendous new arrangement, the invention of an ingenious Junior. The moon is larger than any other moon which has ever been seen around here—but it is not a bright moon. In fact, there are quantities of fleecy clouds in the sky in which this moon floats. The colour scheme is very varied, but mainly along blue and gold tones.

The crowd will be one to tax the capacity of the ball room, as only two tickets remain in the hands of the treasurer, Blake Wilson. The augmented University Dance Orchestra—six pieces for Friday night—will provide the music. The Union caterer has prepared a splendid menu to appeal to the Juniors. The programmes are the best seen in many years, and are things of great beauty as most interesting souvenirs. All in all, such as are cherished for many decades the Junior Prom. for "24" will be the best ever.

STUDEN S SUPPORTING FEDERATION CAMPAIGN

Returns received last night from those canvassing McGil for the Federated Charities campaign, indicate that there are many sympathizers among the student body. No definite statement was made yesterday at McGill, but it was announced that class representatives have been received well and that nearly every student intends giving a contribution however small it may be.

The following have reported:

MONTREAL, THURSDAY, NOVEMBER 23, 1922

OUR GUEST

Sir Robert Borden will address the McGill Canadian Club this afternoon in the R.V.C. Convocation Hall. As Prime Minister of Canada for almost ten years and as head of the Government during the war, this distinguished visitor to McGill is a figure of great interest to university men and women.

Sir Robert has earned much commendation from statesmen of the English Parliament for his conduct at the meetings of the League of Nations, and has made an honoured place for himself as a diplomat in his relations with the United States. He is a most fluent and interesting speaker and a very welcome guest.

The Canadian Club is to be congratulated on the programme provided this year. Sir Robert Borden's appearance, coming as it does so closely on the fine address to which we listened last week at the Canadian Club, proves beyond doubt that the executive is very actively interested in giving McGill the opportunity to hear the best speakers in the country. Yet it must not be forgotten that the executive of the Canadian Club, while it is primarily responsible for the meeting, and while any credit or discredit resulting from the meeting will be borne by it, cannot of itself assure the success of the afternoon. For this latter it must rely upon the student body, and the support tendered by the undergraduates. McGill, in asking an outsider to address a meeting, assumes certain obligations in the way of guaranteeing a representative audience and undertakes the risk that failure to live up to the visitor's anticipations in this respect will bring about a loss by the college in prestige in the regard of the man invited to our midst. A large attendance this afternoon, then, will be a courtesy to Sir Robert Borden, a reward for the efforts of the club executive and a fitting criterion for the judgment of McGill and its interest in public topics.

AN OPPORTUNITY

The advance notices of the year's activities for the Players' Club would almost lead one to believe that the question of what plays, if any, were to be produced, was only of secondary importance in the minds of the executive. It is greatly to be hoped that this is not the case. The Players' Club have in the past formed one of the most widely recognized university organizations, and far from an even partial cessation of their activities, we would like to see considerable expansion. Instead of playing only in the university halls, why should the Players' Club not perform in the city theatres? If, in nearly every other Canadian university, the Players' Societies and Clubs produce each year before city audiences one or more excellent plays, should not McGill also do the same?

There is talent aplenty among the student body, as past performances have amply proved. But the point we are making is that they should become known outside of university circles, and play not only to McGill, but to Montreal. The effect would be to stimulate the activities of the Club, and the mere fact of being one of a cast would become a proportionately greater honour.

At the beginning of this season, therefore, the University is looking forward to seeing their own players performing, not once, to a purely university gathering, but two or three times before city audiences. They can do it, if they so desire.

DISPLAY OF HYPNOTISM LAST NIGHT

(Continued from Page 1.)

also used by priests and religious to drive the devils from people.

Mesmer was very deeply interested, placed.

and he concentrated on the subject to such an extent, that even now this practice is spoken of as "mesmerism." At this point the former subject, Adams, broke in and asked the question he had been told to ask when he wa shypnotized. "What time did Mesmer live," and after the lecturer had answered there was applause at this fresh evidence of the hypnotist's power. He continued about Mesmer, saying that he effected many cures and thought he had supernatural powers, but he made no attempt to explain the phenomena in a more natural way. He thought that there was something in the nature of magnetic transmission which caused these changes in people's state. A committee of medical men which met at this time to consider whether they would adopt hypnotism into their practice, turned it down because of the fraud that they had noticed in connection with it.

Brade introduced the name hypnosis, and he was a medical man. He found that it could be used in surgical operations, and for a time surgeons did make some use of this power. However, just at this time chloroform was discovered, and hypnosis was thrown into disrepute, principally because of its many disadvantages in the medical connection. It had sometimes occurred that the patient would wake up in the middle of the operation with disastrous results. Among the scientists hypnotism lost favour because of the rise of spiritualism, in the same class with which it was

At this time hypnotism was divided into three classes: (1) Physiological; (2) Pathological; (3) Psychological, and these are the heads under which modern hypnotism falls.

In regard to the Pathological study of hypnotism, Sharks has given us many facts and principally those connected with hysteria. He points out that the three stages are (1) lethargy; (2) catalepsy; (3) somnabulism. The effects are (1) loss of feeling of pain; (2) heightened form of sensibility such as telling the difference between two blank cards; (3) Positive hallucination, such as describing a thing in detail that does not exist.

Mr. de Silva brought out the fact that some people are easier to put under than others, such as Hindus, who have a peculiar temperament and nervous system He also showed that post-hypnotic suggestion must be within certain limits, that is, it must not be against a man's moral scruples.

At the conclusion of Mr. de Silva's speech he asked for any questions which might have arisen to be expressed. He was asked many questions, all of which he answered satisfactorily. He brought out the fact here that people do not feel satisfied unless they carry out post-hypnotic suggestions.

Mr. Taylor proposed a very hearty vote of thanks to the speaker, and Dr. Hickson, in seconding, stated how much he appreciated the speech, because it connected Philosophy with reality.

Wilkinson declared the meeting adjourned, and stated that he hoped that another meeting would be held in about three weeks.

"Do you always take a morning constitutional?"

"Oh, yes, only I haven't enough leisure to call it a morning constitutional." —The Minnesota Daily.

NOTICES

FACULTY REPRESENTATIVES.

Nominations for faculty representatives on the Students' Council selected from the Junior Class of each faculty, and signed by 25 students of that faculty, will be received at the office of the Secretary of the Students' Council up to 6 o'clock, Nov. 28th.

C. D. FRASER,
Secretary.

ATHLETIC ASSOCIATION.

As the Department of Physical Education has not approved of their reinstatement, Messrs. Graham-Browne and Kyle are still suspended from the Athletic Association.

C. D. FRASER,
Secretary.

ATHLETIC ASSOCIATION.

The Managers and Secretaries of the various Athletic Clubs are in several cases neglecting to attend to their correspondence on file in the Athletic Office. They are reminded that although their playing season may be over, certain matters will require their attention from time to time The Managers of the Harrier and Track Clubs are requested to collect and turn in their equipment immediately.

C. D. FRASER,
Secretary.

PLAYERS' CLUB.

The executive of the Players' Club will meet in the Reading Room of Strathcona Hall at 5 o'clock to-day.

ARTS '23 PHOTO.

The class photo of Arts '23 which was to have been taken last Friday will be taken this Friday, Nov. 24th, on the steps of the Arts Building at 1 p.m. The board regrets that this mistake occurred; it was due to an error on the part of the photographer.

PARK TOBOGGANING CLUB

Application forms for membership in the Park Tobogganing Club are now available at the Tuck Shop, McGill Union. When completed these must be left with the Porter.

ARTISTS OF McGILL

The following drawings are needed for publication in 1924 Annual illustrating: Arts Juniors, Commerce Juniors, Medicine Juniors, Science Juniors, Dentistry Juniors, Law Juniors, R.V.C. Juniors, M.S.P.E., Theologs, Student Organizations, McGill Daily, Athletics, Mock Parliament, Fraternities, and "The End" Those willing to execute one or more of the above designs, are requested to see the Art Editor, P. R. Wilson, Architectural Dept., Engineering building, or phone him at Uptown 1086, before starting work. It is hoped that in this way fruitless endeavours will be prevented, and artists will be furnished with the exact requirements of each drawing. One copy of the 1924 Annual is awarded to every artist whose work appears in the publication.

WANTED.

Will anyone wishing to dispose of a Junior Dance ticket please call Plat. 5036.

CANADIAN CLUB

Canadian Club meeting at 5 o'clock in R.V.C. Convocation Hall to hear Sir Robert Borden.

R.V.C. '26.

The class picture is to be taken on Friday, November 24th, at Notman's, at 5 p.m. Everyone please be on time.

STADIUM ATTENDANTS

All students employed at the Percival Molson Memorial Stadium during the past season will be paid after 1:30 p.m. every afternoon this week at the Athletic Office, McGill Union.

COMMERCIALS.

There will be a meeting of the Commercial Society in the Union Cafeteria at 8 o'clock to-day.

R.V.C. THE DANSANT.

The R.V.C. Thé Dansant will be held on Saturday, November 25th.

Tickets at 50c. each, are now procurable at the Union, the Arts Building, Engineering Building, or from the members of the R.V.C. Tea Committee.

MASONS, ATTENTION!

All members of the Craft attending the University, are invited to attend an organization meeting of a Masonic Club in Strathcona Hall this evening at 7.30.

UNION HOUSE COMMITTEE.

There will be a meeting of the Union House Committee in the Council Room at the Union to-day at 5.15. All members are asked to be present, as there are some matters of importance to be discussed.

S. C. A. CABINET.

The S.C.A. Cabinet picture will be taken at Notman's on Friday, at 12 noon.

NOTICE

There will be a general meeting of the Radio Association in Room 2 of the Physics Building at 5 p.m. on Friday, for the purpose of electing a committee and discuss the programme for the remainder of the session. All interested in radio at McGill should attend.

PLAYERS' CLUB.

There will be a meeting of The Players' Club executive in Strathcona Hall Reading Room at 5 p.m.

STUNTS.

Will the following students please meet in the Common Room, R.V.C. on Thursday, at 4 o'clock, to practice stunts: D. Hay, E. Baker, J. Gurd, E. Basken, K. Dawson, H. Parkere, D. Anglin, E. Hutcheson, M. McWatters, D. Cross, J. Robins, M. Dyke, R. Grant and K. Perrin.

R.V.C. TEA COMMITTEE.

There will be a meeting of the committee for Thé Dansant, to-day, at 1 p.m., in the Common Room. As this is an important meeting, everyone should be on hand.

R. V. C. A. A.

The executive photograph will be taken at Notman's at 1.10 p.m. to-day. Please be on time.

GRAND MERE TRIP.

All those taking the trip to Grand Mere under the auspices of the Pulp & Paper Club, will meet in the Lecture Theatre of the Chemistry Building on Friday at 5 o'clock. T. R. McLagen will give a description of the Laurentide plant, and berths will be allotted.

NOTICE

General meeting of the Ski and Snowshoe Club in the Union at 5 o'clock today for the purpose of electing two officers.

NOTICE.

The address which was to be delivered by Prof. Goldenweizer, to the graduate Menorah in the Oak Room of the Windsor on Sunday, Nov. 26, at 2 p.m. and to which undergrads were invited, has been postponed till some date in December. Full particulars will be announced later.

NOTICE.

American Club Thanksgiving Dinner Nov. 30th.

ARTS '23 PHOTO.

The class photo of Arts '23 which was to have been taken last Friday, will be taken this Friday, Nov. 24th, on the steps of the Arts Building, at 1 o'clock. The board regrets that this mistake occurred; it was due to an error on the part of the photographer.

CHEMICAL SOCIETY.

The McGill Chemical Society will hold a meeting Friday afternoon at five o'clock, in the Macdonald Chemistry building. Professor F. E. Lloyd will address the Society on "The Occurrence of Tannin in Plants." All are invited.

DEBATE.

"Resolved: That Prohibition should be enforced in the Province of Quebec." On Wednesday, Nov. 29, at p.m., Arts '2. will debate Arts '26 for the semi-fina honors. The sides are very evenly matched, and a splendid debate is expected. The debate will be held in Room 5, and every student is invited to attend. Prof. Latham and two students will be judges.

COSMOPOLITAN CLUB.

Picture at 5.00 p.m. to-day at Notman's.

PHARMACEUTICAL SOCIETY.

A regular meeting of this society will be held in the New Medical Building on Monday, November 27, at 8 o'clock. Prof. A. B. J. Moore will be the speaker of the evening. Refreshments served.

NOTICE.

Fencing practice at Diocesan College, 5 p.m.

NOTICE.

Boxing at Molson's Hall at 5.15 to-night. All entries for Saturday's elimination bouts must be in to-night.

BASKETBALL.

The following games will be played Friday, Nov. 24th.

6—7: Med. '25 vs. Science '26.
7—8: Med. '24 vs. Med. '27.

ARTS '25

All men intending to get a class pin must hand in their names to Macdiarmid before Friday noon. Those whose names are not in by that time will be unable to secure a pin, as the list will then be in the hands of the manufacturer. Those men who have signed for a ring are also asked to see Macdiarmid to get the size wanted.

WATER POLO AND SWIMMING.

There will be a water polo and swimming practice this afternoon at the Central "Y." at 5.15. Swimmers, divers and plungers are needed.

BASKETBALL.

The following men are requested to turn out to basketball practice at 6.30 to-night: Crain, Manson, Mendlesohn, Little, Amaron, Turpel, Hilton, Snyder, James, Scharfe, Brown, Brouson, Blumenstein, Schwartzman, Rofolovitch and Hodina. All other men are requested to turn out a tfive o'clock on riday. Both of these practices will be held in Molson Hall.

COMMERCIALS.

There will be a meeting of the Commercial Society in the Union Cafeteria at 8 p.m. to-day.

ECONOMICS CLUB.

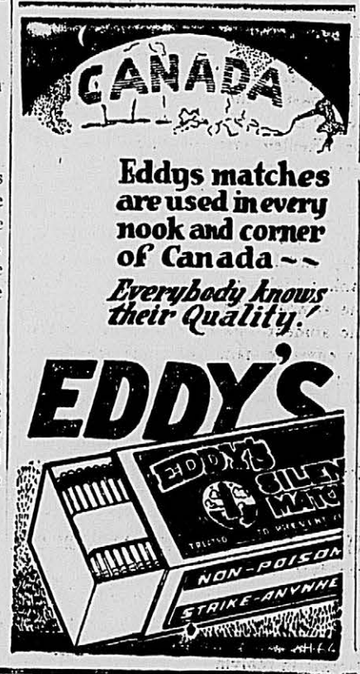

E. R. Alexander, Arts '24, will read a paper at the Economics Club meeting this evening, entitled, "The Development of Water Power in Canada." Economics students are invited to attend.

PUTTING IT FAIRLY.

Little Willie: "Pass me the butter."

Mother (reproachfully): "If what, Willie?"

Little Willie: "If you can reach it."—The Daily Nebraska.

The World is Working for You

THE manufacturer who makes your shoes is working for you.

So is the store that sells you shoes, your grocer, your clothier, and every concern or person who makes or sells anything you buy.

Often these people have messages for you. They want to tell you about new goods, new styles, new prices or other new things they think you should know about.

They can't speak to you **personally** because they have so many customers to serve. So they put their messages in the newspaper in the form of advertisements.

It is to your interest to read the advertisements. **They are published for your benefit.** They keep you informed as to what these folks are doing for you. They help you buy the right goods at the right time and to make the most of your money.

Moreover, you'll find that business concerns that tell you frankly what they are doing are the most dependable. Stores that advertise are progressive stores that have something real to say to you. Manufacturers who advertise their products have confidence in them, because **it does not pay to advertise anything that is not good.**

Reading advertisements is both interesting and profitable.

INTERCLASS BASKETBALL RATHER FAST

Medical Sophs. Outclassed Science Juniors

THREE GAMES

Bronson Scores 20 Points for Arts '25

Molson Hall was the scene of three hard-fought inter-class basketball games last night, when Med. '27 defeated Sci. '24 to the tune of 21—15; Commerce '25 won from Med. '26 by the score of 29—9, and in the final round of the night Arts '25 amassed a total of 36 points to the 11 of their opponents, Theology '25.

The last game was perhaps the best exhibition of basketball seen during the evening. The superior combination and speed of the lighter Arts '25 aggregation proved too much for the opposing team, and though for the first few minutes it looked as though they might hold the Arts men in check. The latter soon got going, and proved their superiority beyond a doubt. Bronson was the outstanding player in this game, and accounted for no less than 20 points for Arts '25. Miller, Rapp and Bronson combined in some pretty plays during the game, and their shooting was deadly. The score remained at four all for the opening moments of the game, then Bronson started more scoring, and Arts '25 soon ran up a lead, at half time the score standing at 18—4 in their favour. In the second period Theology tried hard to even up the score, but lack of condition was against them, and in spite of erratic outbursts of speed they were unable to overcome the lead held by Arts '25, Bronson again coming through with some fine sharpshooting and netting ten more points for his team.

The teams lined up as follows:—

Arts '25.	Theology '25.
Forward.	
Miller	Lloyd
Rapp	Moore
Centre.	
Bronson	Avison
Guard.	
Smith	Davis
Abinovitch	Cousens
Spare.	
Freedman	Scharfe

The game between Med. '26 and Comthe brand of basketball played was not of the brand of basebal played was not of an exceptionally high order. Disputes between the players and the referee marred the latter half of the game, which otherwise was quite free from roughness. Commerce managed to come out on the long end of a 10—6 half time score, but in the second stanza they opened up the fireworks and the final score read 29—9 for the Commerce team. Davis, playing left forward for Commerce '25, turned in a fine game, and was especially accurate in shooting penalty baskets, accounting for seven of the points for his side in this manner.

Commerce '25.	Med. '26.
Davis	Beardsley
Glickman	Menzies
Cummings	Miller
Bright	Chalmers
Henderson	Nathanson
Johnson	Boucher

Med. '27 scored a creditable win over Sci. '24 in inter-class basketball, although neither team showed very startling form. The final score was 21—15, and was very indicative of the play. Science was erratic in combination and lamentably weak in free shooting, while Meds. used short, snappy passing and took quick advantage of every opportunity.

The first few minutes saw some very loose play on both sides, and almost resembled the opening of a soccer game. Medicine tightened up and scored a basket, after pretty combination. Richardson added a free shot to his team's score, and another was scored a minute later. After continued steady playing, Med. scored a field basket, and it looked as if Science was to be outclassed entirely. However, Butler, Science centre, after tallying on a free shot, dropped in a field goal, and one of his teammates followed suit in a few seconds. Then Med. forged ahead once more after using snappy combination; and each side scored two points before the half-time whistle blew, leaving the score at 10—7 in Meds' favor.

In the second half the play was fairly evenly divided, although Meds. retained an edge. Rapkine was the star of this period, scoring practically all of his team's points. He seemed to have equal precision in shooting from the field and from the foul-line. Wyse succeeded in scoring several for Science, but they were unable to take the lead. The game ended just after, the scoring of a free shot by Science. Final score 21—15.

Rapkine was the pick of the two teams, while for Science, Wyse and Snyder both played consistently. The attendance was one of the largest seen at an inter-class game this session, and good plays were liberally applauded.

The teams lined up as follows:—

Med. '27.	Sci. '24.
Forward.	
H. A. Quackenbush	W. P. erguson
L. Rapkine	P. L. Douglas
Centre.	
C. Richardson	E. W. P. Butler
Defence.	
J. Tansman	C. D. Evans
Adams	E. Snyder
Subs.	
V. Snow	W. J. Wyse
F. S. Dume.	
B. Robertson.	
Referee: Kennedy.	

SERIES OF ADDRESSES FOR C.O.T.C.

Programme Outlined for "A" and "B" Candidates

SIXTEEN SUBJECTS

Lecture Today, 5:15, in Room 33, Engineering Building

The McGill Canadian Officers Training Corps has announced the subjects and dates of the lectures to be given this year for the benefit of candidates for A and B certificates. The students are fortunate in having secured for lecturers men who have seen active service, and are very familiar with their subjects in a practical way. Colonel Alexander and Major Neilson are on the General Staff, while Colonel Pope's unit is the Royal Canadian Regiment. Except for four lectures in January and February, all will be given on Thursdays, and always in Room 33 of the Engineering Building during the hour from 5.15 to 6.15 p.m. The list follows: —

Thursday, Nov. 23rd: The Approach—Protection on the Move.—Lt.-Col R. O. Alexander, D.S.O.

Thursday, Nov. 30: The Attack (principally with reference to the company & platoon)—Lt.-Col. R. O. Alexander, D.S.O.

Thursday, Dec. 7th: The Defence and Counter-Attack (principally with reference to the company and platoon)—Lt.-Col. R. O. Alexander, D.S.O.

Thursday, Dec. 14th: Protection at Rest—Lt.-Col. R. O. Alexander, D.S.O.

Thursday, Jan. 4th: Topography—Lt.-Col. E. W. Pope, C.M.G.

Thursday, Jan. 11: Topography—Lt.-Col. E. W. Pope, C.M.G.

Thursday, Jan. 18th: March Discipline and Camp Routine, Sanitation, etc.—Capt. B. Leeceh.

Tuesday, Jan. 23rd: Musketry—Sgt.-Major Clarke.

Thursday, Jan. 25th: Information, Reconnaissance Reports.—Lt.-Col. R. O. Alexander, D.S.O.

Thursday, Feb. 1st: Discipline and Military Law.—Lt.-Col. E. W. Pope, C.M.G.

Tuesday, Feb 6th: Musketry.—Sgt-Major Clarke.

Thursday, Feb. 15th: Discipline and Military Law.—Lt.-Col. E. W. Pope, C.M.G.

Tuesday, Feb 20th: Organization and Administration.—Major W. Neilson, D.S.O.

Thursday, Feb 22nd: Operation Orrs and Messages.—Lt.-Col. R. O. Alexander, D.S.O.

Tuesday, Feb. 27th: Examination Questions.

March 1st: Supply Service and Administration.—Major W. Neilson, D.S.O.

GOLLEGE SURVEY BY MUSICAL ASSOCIATION

A meeting of the McGill Musical Association took place yesterday evening in the Union, at 5 o'clock. President C. H. Fraser acted as chairman. Secretray L. E. Stephen read the notes of the last meeting. A suggestion put forward to plan a grand concert by the Association in the spring was discussed at length, but no final settlement has been reached as yet. The idea was to be left over to further debate at future meetings.

R. J. Moore, of the McGil Glee Club, reported favorable progress in the plans for the big Glee Club Concert on December 14th. The Committee in charge of Sunday musicals is planning to hold a musical in the near future. These musicals were very popular last year, and should prove as popular this year.

The plans for a general survey of the University to discover latent musical and vocal talent was discussed, also arrangements will be made through the Students' Council to get in touch with the Class Presidents in order to be able to make a quicker survey. There is always some talent which in all probability would remain unknown, but this plan of a general survey ought to bring this out.

SOPHOMORES ARE GUESTS AT BANQUET

Med. Freshmen Entertain Their Seniors at Venetian

GOOD SPEECHES

Hatchet is Buried and Goodfellowship Prevails

The popularity of the Venetian Gardens as a banqueting hall was again manifested last evening, when the two first years of the Faculty of Medicine met over the festive board, the occasion being the annual Freshman-Sophomore banquet.

As was prophesied by the president of the Sophomores at the last meeting of the two years, this second coming together was much more enjoyable, more especially to the Frosh, than the first. The affairs of the evening were most capably arranged by A. G. Dujat, and the success of the evening was entirely due to his efforts and the efforts of his committee.

The management of the Venetian Gardens also is to be congratulated on the success with which it carried out the details of the evening, and the entertainment provided by the various soloists was all that one could wish. The music furnished by Martucci's orchestra was entirely successful in furnishing the proper atmosphere for the full enjoyment of all those present.

As toastmaster, A. Olmstead certainly filled the bill, and by his speaking demonstrated his right to the honorary position at the head of the tables. The toast to the Faculty was proposed by S. D. McKinnon and in his reply Dr. Reilley said he wished to draw attention to the close relationship between Medicine and Physics. He said the McGill Medical School was known the world over for doing things as they should be done, and has always ranked high above all others. Due to the sympathy between the Faculty and the students, its graduates have made an enviable name wherever they have gone, and this fact should be borne in mind by all at present in attendance at the school. In conclusion, Dr. Reilley pointed out that the three requisites for achievement were vision, courage and perseverance.

In proposing the toast to our Alma Mater, A. G. Dujat laid emphasis on the fact that a splendid spirit is fostered while we are within the bounds of the university which all graduates remember when beyond her gates. Dr. Notkin in replying impressed on everyone that they should take advantage of what the Alma Mater has to offer. He made reference to certain remarks said to have been recently uttered by a very clever man of the present era, namely, Thomas A. Edison, in regard to the lack of initiative of college men, and while admitting that they might apply to some colleges they certainly did not fit in here at Old McGill. Besides stimulating study the Alma Mater had always encouraged the doing of other things.

The toast to the guests was proposed by Wright, who remarked that banquets were always successful in building up McGill spirit. Major Ball in his reply extended the thanks of the Sophomores as did Gilson, of Second Year.

Due to a faculty meeting called for last evening the expected speakers were unable to be present, but Dr. Campbell fitted in well as principal speaker. His chief bit of advice to those present, coming from a graduate of the old school, was that they must not be too prone to succumb to the whims of friends. There is sufficient room in the Medical profession for all, he said, and success will surely come to all who properly map out their course. His final words were "Do all you can with the least possible murmur."

This most excellent banquet was concluded by the singing of "Hail Alma Mater" and "God Save the King."

STUDENTS IN MUSIC FORM ORGANIZATION

A meeting of the students of the Faculty of Musisc was held in the Conservatorium on Tuesday night, at which it was decided to form an Undergraduate Society for the students of music. No such society has existed in the past, and it is to be hoped that all students of music will back up this effort to get together and meet one another.

The officers were chosen as follows:
President—Miss A. De L'Agneau.
Vice-Pres.—Miss V. Watt.
Secretary—Miss M. Scane.
Treasurer—Miss W. Jamison.
Reporter—Miss E. Cameron.

In addition to these officials, Miss McKay and Miss Gianque were elected as members of the executive committee.

"Gosh, I didn't realize Jack was so tight before."

"No!"

"The other day he told me that he had lost money through investments and come to find out he'd tried a gum slot machine and it didnt work."—Brown Jug

THE SHOOTING BY WILL-YUM HUGHES

(After R. W. Service—with no hope of overtaking him—and crediting "Globe Trotter," H. I. Phillips with an assist.)

A bunch of the fans were whooping it up in the lee of old Mount Royal,
Declaring the 'Varsity team was in, according to Mister Hoyle.
In his old grey hat, on the bench marked "Queen's," said Dangerous Billy Hughes,
And ever he laughed a hoarse hee-haw as he read the expert views.

When out of a fog-land of "ifs" and "ands", and into the din and the glare,
There stumbled a party called Old Man Dope, who seemed to be loaded for bear.
He seemed one of those guys who are mighty wise, and know the results in advance;
"Queen's has no chance," he declared with a roar, as he pulled out a book from his pants.
Now all of us knew the dopester well and took his word—poor stews—
And we drank his health—but the last to drink was Dangerous Billyum Hughes.

There's men that somehow just ooze with "dope" till they get you that way, too
And such was he, and he looked at me like a man who, maybe, knew.

He had figures thick just to prove the trick could be done by the Blues with ease,
And he'd quote 'em loud in a manner proud to prove that Queen's were cheese.
So I got to figgerin' Old Man Dope, and that 'Varsity couldn't lose,
And I turned my head—and there watching him was the Dangerous William Hughes.

Then, on a sudden, the game was on, with a rush and crash and roar;
And the air was filled as the signals spilled—and Queen's was the first to score.
And you felt, if a 'Varsity fan you were, you'd been thrown for a total loss;
That someone had socked you between the eyes; that dope was the apple sauce.
'Twas the crowning cry of a heart's despair, and it chilled your dying hope—
"That's only a flash, right soon they'll crash," said, sullenly, Old Man Dope.

But the spirit of battle was there unleashed—and it broke in a pent-up flood,
And it seemed to me, from what I could see, that 'Varsity's name was mud.
The thought came back of the week before, and it stung like a frozen lash,
And the lust awoke, more points, more points—and each Scotsman took a smash.

Then this Dope man turned, and his eyes they burned in a most peculiar way;
In a thick blue funk, with his book of bunk, he stood, and I saw him sway;
Then his lips went in, in a kind of grin, and he spoke, and his voice was thick;
"Now, boys," said he, "you all know me—I'm the expert's real side-kick,
And I want to state, and my words are straight, though this probably is strange news,
That somebody's slipped me the double cross—and that one is William Hughes."

Then I closed my eyes as McKelvey charged with a crash through the line of Blue,
And the points rolled up for the winning team—which they nearly always do.
As I left the park—and 'twas nearly dark—through a sewer my pathway led,
I stumbled over a prostrate form—the Dopester, extremely dead.

These are the simple facts of the case, and I guess I ought to know;
They say the stranger was full of hop, and I'm not denying it's so.
I'm not so wise as these "expert" guys, but still I'm no dumbbell mope—
The way to win out in a Rugby bout is never to follow the dope!

—The Herald.

NEWS OF THE SENIOR BASKETBALL PLAYERS

The most recent development in the basketball activities is the acquirement of the use of the High School gymnasium for the Intercollegiate series this year. In the past the Red and White team has played its home games in the Highlander's Armory but this year it was impossible to secure the use of this floor. The City League games will be staged in Molson Hall. Although the lack of space in which to practice has been a huge difficulty to overcome, the appended list of men has been made up and it is hoped that they will be able to practice at least three times a week in the High School. This group is for the time being the Senior squad but the other teams will be watched and changes will be made whenever it is found that good men have been overlooked.

The next practice for the Seniors will be tonight at 6:30 in Molson Hall. All the other men who have turned out as well as any new men who hope to play are requested to be out on Friday at five. This second group will be used for the second intermediate and the junior teams. These teams all have a heavy schedule this year and the possibilities of developing new men on them is good.

The following men are on the Senior squad: Crain, Manson, Mendelsohn, Little, Amaron, Turpel, Hilton, Snyder, James, Scharfe, Brown, Brenson, Blumenstein, Schwartzman, Rofolovitch, Hodina.

E. T. CLUB DANCE A MERRY AFFAIR

Considered Best Social Club Has Held Since War

Probably the most successful dance held by the Eastern Township Club since the war was held last night in Alexander's Hall, Westmount, when over 75 members joined in the first dance of this season. Th edecorations were simple but effective; the music supplied by Adney and Lebaron, was most excellent, and the refreshments of the best. Miss Thom was chaperon.

Among the ladies present were: The Misses Perry, Brown, Ware, Wilson, Towne, Donald, Mace, Nixon, Davison, Howard, Bashaw, Manson, Fuller, H. Thompson, Moreau, Bryce, Bertrand, Williams, Botterill, Alexander, McPhee, Powell, Ewing, Hunt, McKenna, Jowett, Smith, James, Morgan.

Men: Cousens, Anderson, Bryce, Gilson, Flaherty, Donegan, Bagley, McLeod, Wheelen, Cleveland, Stockwell, Davis, Ward, Hall, Woodhouse, Savage, Caswell, McKindsey, Ross, Williams, McLeod, Martin, Whitmore, Cameron, Webster, Simpson, Smith, Summers, Jones and Howell.

MECHANICAL CLUB VISITS "STAR" PLANT

(Continued from Page One)

poured in to make the printing block which is semi-cylindrical in shape. This printing block is then sent to the printing room and fitted on the press.

The group then visited the telegraph room of the editorial offices and the "morgue." The "morgue" contains about three hundred thousand biographs of prominent men all over the world.

The work on an issue of the "Star" is started about nine o'clock the previous night. At that hour the night editor and his staff start preparing the advertisements. At about eight o'clock in the morning work is statred on the news items. Every operation is timed to the minute. The various editions are scheduled to be out at Main Exchange of the Bell Telephone certain hours and no delay is possible as copies of the paper have to go on the trains and trains will not wait.

The members of the party who had not done so last year then visited the Company. The cable racks, battery room, auxiliary dynamos and the telegraph department were first visited. The elaborate system of locating the various causes of "trouble" was carefully explained, and the mysteries of the "phantom circuit", by which four separate conversations together with four telegraph messages are sent over the same wire at the same time, was alluded to.

The party was then conducted to the operating room, where the "A" and "B" switchboards were fully explained. The information and the long distance departments were then visited. At the latter the interesting system of "relays" was explained. Toronto and New York are called most frequently, and it is interesting to note that a certain concern speaks with Havana, Cuba. Before leaving, the rest room and cafeteria were visited.

The members of the staff of the Bell Telephone were very courteous and clear in their explanations of varoius letails and a trip to the exchange is well worth the time spent on it.

It is unfortunate that there is no afternoon during the week on which the members of the whole four years are free from lectures.

FISTS, FALLS & FOILS

The leather pushers are getting into shape for the faculty elimination bouts, which are to be staged at Molson's Hall on Saturday afternoon.

Already there are about sixty entries for Saturday's contests. Many more aspirants will inscribe their signatures before the lists close to-night.

"Shorty" Morris will be on hand at Molson's Hall to-night to welcome any entries for the eliminations.

McGill's merry mitt slingers are to invade the noted precincts of St. Anne de Bellevue on Monday night.

This is the second invitation extended to the McGill boxers by the St. Anne authorities.

Another engagement of the playful boxers is announced for Monday night at the Ontario Club Smoker.

It was thrilling to note the enthusiastic reception accorded the McGill wrestlers at the National Club the other night.

Coach George Smith will tell the world he was proud of his pets on that occasion.

The Faculty eliminations in wrestling are scheduled for the first week in December.

This is the time of the season that the husky and overfed grapplers start to worry about surplus fat.

Boxing practice at Molson's Hall at 5.15 to-day.

Fencing at Diocesan College at 5 p.m.

A SAFE BET.

Did you ever
Stroll home late,
And as you
Passed a door of
Some swell house
You heard a
Shuffling of feet,
Or maybe just
A long drawn sigh,
And then you heard
A thrilling smack?
Well, you can wager
Your best hat
The young man
Doesn't live there.

The time she's comin' out.

But my ole Pa thinks different,
He says what's gettin' him
Is when she's out at night—Great Guns!
What time's she comin' in.

FAMOUS SAYINGS.

"He certainly stuffed me!" said the owl, as the taxidermist put on the finishing touches.

Adam was the only man who could safely believe his wife when she told him he was the first man to kiss her.

"Two bad!" remarked the fair Freshette as she tossed a couple of stale eggs out the dining room window.

A girl is a coward when she won't meet you face to face.

People are just dying to ride in a hearse.

"You go to H—l!" said St. Peter, as the latest arrival presented his passports. —The Brunswickian.

WHO

are the members of R.V.C. '23 who insisted upon giving a spirited burlesque performance for the benefit of certain unfortunates situated across Sherbrooke Street from them?

AND

do these latter realize that they are unwittingly affording the same for certain co-eds every evening?

WHY

did a member of Pyhsical Ed. '23 rush into the "Daily" sanctum, unannounced, last Friday about midnight? Was she disappointed?

WHO

were her escorts, and on the next occasion will they use the front door?

WHO

is the Commerce "Rudolph" in his Freshman year, and the Law Senior, who are supposed to have reached ages of discretion, who persisted, despite the protests of the neighborhood, in presenting the latest interpretation of the Argentine Tango on University Street last Thursday evening?

WHO

let the cat out, and who caught it afterwards?

WHO

is the "Lochinvar out of the West" completing his third year in B.Sc., who was such an obvious centre of attraction on the Westmount street car Wednesday evening?

WHEN

will he learn the dangers of travelling unaccompanied? Or was he?

WHY

did the Union run out of oat-meal porridge yesterday a.m.?

AND

was it "Union" or oat-meal that drew the crowd?

WHY

has the Union management ordered grace to be said before all meals—indefinitely?

IS

there a revival going on in one of the Theological Colleges?

If not, why all the meetings?

AND

who is making a "hash" of things.

IS

this the first casualty on record?

SHOULD

a field doctor be appointed for the convenience of competitors?

WHO

is the tall dark Science Soph who shouted frantically for King Beaver while on the operating table?

AND

did he nearly pull the doctor's beard?

WHO

is the lanky and short-sighted student, fresh from L.C.C., whose favourite expression to avoid a combat is, "Wait till I take off my glasses?"

WILL

he ever take them off?

WHO

is the last year's Science Junior who left his eight-ounce bottle at R.V.C.?

AND

are such ancient relics cherished with an eye to future hopes?

WHO

was the Law Senior playing "Monkey-up-the-Stick" one recent night in R. V. C.?

WHO

is the Science senior of Rugby reputation so averse to co-education?

AND

has he any "outside" reason?

WHO

is the B.Sc. Senior who managed to have the class picture postponed because he got up too late to wear his spats?

AND

why did someone exclaim "Great Scott!"

WHO

is the B.Sc. Senior who has earned a reputation for guiding well dressed ladies through the Chemistry Building?

AND

since when has the Arts Dean's Office ben removed to two flights below the ground?

WHO

is the sophisticated Sophomore in Medicine who is so anxious to dispose of last year's spats?

WHO

is the co-ed responsible for this change of mind?

AND

why is he so struck on overshoes?

WHO

was the young R.V.C. Freshette who blamed her befuddled French accent on R.V.C. coffee last Tuesday morning?

WHO

is the ex-Co-ed of 'Varsity, and now member of Arts '23, that was so enthusiastic over wearing the Blue and White ribbons at the game?

AND

did her "Blue and White he friend" sympathize with her?

LOST & FOUND

LOST.

Black leather loose-leaf note book with notes, in Physics Building yesterday morning. Will finder please return to Janitor and oblige.

LOST.

A pocket diary of value to the owner was lost in the lounge room of the Union on Saturday afternoon. The owner's name is inside it. Will the finder please leave same with the Hall Porter at the Union.

FOUND.

In Locker Room and in Gymnasium, Molson Hall.

1 History of Modern Philosophy.
1 gold cuff link, with enamel.
Tickets for football match.
2 jerseys.
3 sweaters.
Bank book.
1 pair shoes.

FOUND IN PHYSICS BUILDING.

One Physics Note Book.
One pair Spectacles with case.
One Fountain Pen.
One Pipe.
Apply to I. Palmer.

LOST.

On Tuesday morning, in Room 38, Engineering Building, a Waterman Pen, wtih the word "Ideal" scratched off. Finder please return to Harry.

They sat on the sofa together
And it seemed to him a dream,
So he said "If I should kiss you,
Now tell me would you scream?"

SIR ROBERT BORDEN FOR THE LEAGUE

Public Opinion a Necessity for Successful Operation

AT R.V.C.

Members of Local Council of Women Out to Hear Him

Sir Robert Borden delivered an impressive address last night at the R. V.C. at a public meeting held under the auspices of the National Council of Women of Canada. Miss Carmechal, who just recently assumed her duties as president of this Council, prefaced Sir Robert's address by a highly interesting reading concerning the activities of the Council, and introducing this notable personage who is the president of the Canadian Society of the League of Nations.

Sir Robert, assuming that characteristic attitude and pose of the veteran orator, and with that impressive, deep, rolling voice of his, immediately gained the tense interest of everyone in the audience. He commended the work of the women through the medium of their Council, and the principles for which they are expending so much effective effort, saying, "You have a greater power now, having achieved the franchise, than ever before." There is every need in this country of those who can assume charge of public opinion and direct it into channels that will lead to the fostering of world peace, "the Parliament of man, the Federation of the world." In this direction women, who are gaining an equality with the opposite sex that enables them to take part in the most important problems facing humanity, can lend invaluable assistance.

When the Canadian Society of the League was first organized Sir Robert was offered the presidency, but he was in poor health at the time, having given up all his public duties to try to regain his failing strength, and refused the position. Still he was urged to accept the office and finally consented with the understanding that his duties would be very light. There are four branches of the Society in Canada, at Toronto, Hamilton, Ottawa and Halifax. Commenting on the vital need of such a society and the principle for which it stands—world peace—Sir Robert said: "No nation can live by itself alone. The United States cannot live alone. Every nation sits virtually at the threshold of every other." He then read part of an address by prominent leader of the National Council of Women, who expressed her attitude towards the League in the following words: "It is not enough to desire peace, or even pray for it; we must work for it." From the minds of men the horrors of the war may fade but from the minds of mothers never. It is from the mothers of the world that the League of Nations will receive a dynamic power. The speaker commended these words to everyone, expressing the hope that they would sink deep into the hearts of all.

The Canadian Society of the League was formed eighteen months ago. It has a five-fold object—to promote international peace; to supply information concerning the activities of the League of Nations; to study international problems; to foster mutual understanding between Canada and other countries; and finally to promote good fellowship between the Society and other organizations of a like character.

The League of Nations Covenant constitutes the first part of the peace treaty signed at Versailles in June, 1919. At the time the League was created there were more than thirty nations represented at Paris and who joined it then. Now, all the civilized nations of the world are represented on it except nine. Among these remaining nine are Germany, United States and Mexico. The general scheme of the League is that the adhering nations shall submit their grievances to the jurisdiction of the representatives; to deal with questions of health affecting humanity; to suppress the distribution of dangerous drugs; to suppress the traffic in women and children; to punish any country which wilfully resorts to war. Sir Robert sought to impress that the League is not a transitory, inactive thing but that it is a permanent, vital reality. In August, 1914, Sir Edward Grey laboured as no other living being could to bring about a conference that might have prevented war. Why was he not able to do so? Because it takes months to achieve such an object. While Sir Edward Grey was striving to his utmost to bring about the impossible the great war began and as a result "the foundations of civilization are still crumbling from it." The League of Nations is always prepared to deal with international disputes in a very short length of time.

There are three main divisions of the League, the Council, the Assembly, and the Secretariat. At first the Council was given a supreme position, and the Assembly a very minor one, but the present tendency is for the Council to assume the attitude of a Cabinet, and the Assembly a parliament. The Council meets every two weeks, the Assembly twice a year. The Council has to report to the Assembly, thereby coming under the criticism of the latter. Also the Assembly is in charge of the Budget so that the Council has not the authority to expend at will. Sir Robert said: "What we want is the co-operation of all the nations of the world. I do not believe that the peace of the world can be maintained by bare diplomatic machinery of any kind; you have to have the living spirit itself to work the machine." At the Disarmament Conference at Washington the nations' representatives who assembled there conferred in an atmosphere of suspicion and distrust; the essential spirit of fellowship was sadly lacking. The only hope for the success of the efforts of such a representation is "to bring the representatives face to face around a common council table that they may learn to know each other. "I believe the only path to peace of the world is through public opinion."

What has the League done in its two and a half years of existence? It has prevented war between Sweden and Finland, between Jugo-Slavia and Albania, between Poland and Lithuania, and lastly between Germany and Poland. In connection with these last two countries named the most difficulty was experienced. It was almost impossible to draw up a treaty satisfactory to both parties. However, a treaty consisting of six hundred clauses was finally signed and "this danger which threatened the world was settled once and for all." The League has done much for the carrying on of a war against contagious diseases; it has worked hard to ameliorate labour conditions, to suppress the white slave traffic, and has taken effective action in defending minorities, such as Poland, which might be crushed by larger nations.

Speaking of the reduction of armaments Sir Robert expressed the opinion that the question of reparations, inter-Allied debt and the restoration of mutual confidences among nations would have to be dealt with before the consideration of the reduction of armaments. He is confident that although the United States has not joined the League, the spirit of the Americans is heartily in favour of the purpose of it.

"Some people speak scornfully of the League. I cannot think these people really understand what it has accomplished. If there was no League of Nations what would you propose instead? Would you go back again to the horrors of 1914? If the League is going to succeed it will succeed with public opinion behind it, and the public opinion of each country goes to make up the public opinion of the world, s we have a duty to perform to voice ou interest in this great movement.

During the war no sacrifice was too great, we mounted on wings as eagles we ran and were not weary; can w not now in time of peace walk an not faint. Is it not worth while t use some of the same energy and enthusiasm the place may be preserved. Why not use these same qualities in time of peace in order that the grea storms of 1914 may not rise again."

Jones (phoning)—I want a box for two.

Voice (at other end)—But we don't keep boxes for two.

Jones—Why, aren't you the box-office of the "Jollity",

No; you must have the wrong number, We're Graves, the undertakers!
